

Stolen Dog

Please Help Bring Her Home!

On February 26th our family's life was turned upside down. Our family dog, Star, got out of our yard, on the 2500 block of Elmkirk Park in McHenry. (on: River Road/near River Park Subdivision). Within seconds as we ran for her, we witnessed a woman, mid 40's, light hair, driving an older, light colored Chevy Cavalier, heading South on River Road in McHenry.

We have posted posters, delivered flyers door to door and notified all of the authorities. Star is no where to be found. We thank God for the person that picked her up and saved her life, but don't understand "**Why**" they won't call someone and fear they are trying to keep her for their own.

Star is more than just our family's dog. She is the last remaining memory that we have of my mother, who passed away in December. Our family is in complete devastation that she is gone. She is in need of heart medication and needs a special diet.

We are asking for your help! Star is a little, white, long-haired Cotton De Tulear, a rare breed. We are hoping that by keeping the word out, **that someone will see or hear something**, and come forward to help STAR come home to her family.

When Star left home, she had long white straight hair, it was never cut. She had a top knot, weighed approx. 15-18 pds., has big brown eyes and a pink nose. Her appearance could be distorted, by someone who has chosen to disguise her looks. She resembles a bigger Maltese but is the size of a Bichon. Even if her hair has been cut, it will never be curly. If seen in a car, she barks like crazy if you walk by. Please contact us if you see or hear of anyone with a new dog, or a similar dog, with these features.

A sincere thank you to all the wonderful people we have met who are assisting us in our efforts in finding her. You've helped make this difficult time a little easier to get through. **WE WILL NEVER GIVE UP THE CONTINUED SEARCH FOR HER.** Please keep this information easily accessible to you, your friends, and neighbors near you.

Sincerely,

Kathy Lersch
